

Sports Premium Funding Evaluation 2016- 2017

In the academic year of 2016 to 2017 we received £9050. Guidance on this funding stipulates that it must be spent on the sustainable improvements to the quality of PE and sport, benefitting pupils who join the school now and in the future. Below is a table of information that states how we used this funding in the academic year of 2016-2017 to promote quality PE and sport at Lyncrest Primary School.

	How the funding has been used	Impact	Cost
1.	To hire qualified sports coaches to work with and alongside each teacher in school, once a week, for a period of one hour, to develop practice within school, working to develop the practice and quality of teaching in the delivery of the Real PE scheme or a specific sport.	This has enhanced the quality of teaching in PE, as teachers have been up-skilled in areas they wish to develop in, thereby enhancing the sustainability of quality provision.	£4750.00
2.	To hire a qualified sports coach to run lunchtime sports clubs in which we aim to support and involve the least active children while also ensuring every child in school gets the opportunity to participate in these clubs, thereby encouraging more pupils to take up sport. Accordingly, within these clubs we aim to introduce new sports or activities (e.g. handball) and coordinate and deliver training for upcoming extra-curricular sporting competitions.	Children have developed an enthusiasm for participating in sport, particularly those who are often not engaged with sport. Additionally, children have engaged in sporting activities they would not usually access and as a result of this more children, more often, have participated in sport across the school as they have had an interest to try new things. Moving into next year more children are now engaged in sport and want to take part in sporting activities.	£4750.00
3.	To increase involvement in sporting competitions with other schools through membership with The Duston Cluster Sports Partnership and the Northampton Town School Sports Federation aiming for over 85% participation from all children in KS2 to attend an extra-curricular sporting competition.	This continuing model is an essential yearly investment for the children to become involve in competition. The impact of it can be seen through the increasing number of children involved in competition across KS2 (85%). Furthermore, with membership to the Duston Sports Cluster (costing £562), all school staff have gained access to sports specific training, thereby increasing the sustainability of high quality teaching and learning in PE across the school	£762.00
